Using NATURAL in Batch Mode

The following procs are currently available for the execution of NATURAL in batch mode.

NATURAL-VANILLA			
PROC Name	NATURAL Module Executed	Database Accessed	Comments
NATBTEST	NATBTEST	ADABAS2	Test Base
NATBGG	NATBGG	ADABAS1	General Government Base
NATBGGPF	NATBGG	ADABAS1	General Government Base, Prefetch Option
NATBCJ	NATBCJ	ADABASCJ	Criminal Justice Base
NATURAL-SECURITY			
NSSBTEST	NSSBTEST	ADABAS2	Test Base
NSSBGG	NSSBGG	ADABAS1	General Government Base
NSSBHS	NSSBHS	ADABASHS	Human Resources Base

The following procs have been replaced by those listed above. They will be deleted from the system libraries on June 28, 1987. You need to change your JCL by this date if you are using any of the old procs.

Old PROC Name	Replace By PROC
NATBMVS3	NSSBTEST
NATBPRF	NATBGGPF
NATBPROD	NATBGG

NATBSEC	NSSBTEST, NSSBGG
NATXV42	NATBGG

Two batch NATURAL-VANILLA load modules have had their names changed. The old and new names are listed below. The old modules will be deleted from our system libraries on June 28, 1987. If you use these old names in your JCL you will need to change to the new names by this date. The new modules are available now.

Old Module	New Module
NATDEMO	NATBTEST
NATDEMM	NATBGG
